

INSTRUCTIONS FOR USING THE BOOKSTORE

K12 Student Direct is the official partner of your school in the operation of its bookstore. The following is a guide to navigating the online bookstore.

Go to www.K12SD.com. Note: Please make sure your browser is up to date to ensure proper functioning.

SETTING UP AN ACCOUNT

1. Choose 'sign up' on the left of the page. Select whether to set up a student or parent account. Parent accounts are able to set up multiple student accounts under their own.
2. Type in a short version of your school name (example: If your school is "Walt Whitman Preparatory School" just "Walt" will suffice). Choose the state in which your school is located and click Search. Select the checkbox next to your school and click 'Next'.
3. Please follow the steps to enter your name and other required information. It's recommended that student accounts include a school ID. The ID will be used to match you to your list of assigned courses, if this info has been provided by your school.
4. You will receive an email from support@k12sd.com asking you to confirm the account. You must do so to move forward. If you don't see an email, please check your junk and spam folders or contact us.
5. Parents: after confirming set up of your account, you will be able to set up students under your account. This enables you to pre-populate courses from multiple students.

FIND YOUR COURSE MATERIALS

If a match was found for your ID, the list of courses to which you're assigned will appear in MY COURSES. You may also search for courses and materials individually. Used and rental options will be displayed when available as well as digital options. Add items to your cart individually or in bulk. Select the SHOPPING CART button in the upper right portion of the screen to access your cart.

CHECKOUT PROCESS

1. After reviewing the details of the items in your Shopping Cart, select CHECKOUT.
2. If you are a parent ordering digital books on behalf of multiple students, you will encounter prompts to assign those titles to your students. This is so that we can accurately set up access credentials
3. Complete shipping contact and address and select a delivery method. Most orders shipped ground to addresses in the Northeast will arrive within one business day following processing.
4. On the next page, review the details of your order and choose a payment method, filling-in the appropriate fields. Once you are confident in your order, select to CONFIRM PURCHASE.
5. A confirmation page will be displayed for the order and emailed to you. Please note your Order Number. Orders placed by credit card will be processed right away. If you choose to pay via cashier's check or money order as your payment method please note that your order will be held until payment is received. Personal checks are not accepted.

Additional info, including how to make returns and frequently asked questions can be found [on the website](#).

USING YOUR eLIBRARY

When you purchase digital books, your personal eLibrary serves as one central location for access to those books, no matter the format or access type. Digital books come in many different formats. Many aren't 'books' in the traditional sense of the word. Some have more in common with an interactive application than they do with a traditional printed textbook. As a result, access to the book isn't always as simple as downloading a text (though sometimes it is).

The eLibrary platform is designed to centralize that process as much as possible, but it does mean that you may be using a few different platforms and apps to access your books. If you run into any trouble, we are here to help!

eLibrary

These are your purchased digital titles. Each book's detail page includes instructions on how to download the file. Please follow the instructions carefully and only access books on a device that is compatible with the format. For more info on this, check out [our FAQ on the topic](#).

Basic information about the title including the format.

The access credentials: some will display as a link to download the file while others may display as a combination of usernames, passwords, or codes to access the product on an external website or app. You must confirm that you've read the instructions to 'release' the credentials.

Extended information, including duration of license and device compatibility.

A note on processing time: It may sometimes take time to process an order because there is backend set up that we need to do on our side to get your product classroom-ready. We ask for your patience and assure you that we will do everything possible to get your book to you in time for the start of school.
